When filling out the verdict form, for each individual, ~~do~~ we need to accept their estimate completely?

Can we decide what we believe to be a fairer estimate and make our own calculations?

We are not sure if we must accept the plaintiff calculation ^{vs} or decide nothing.

You need not accept a Plaintiff's exact estimate. You are to decide based on the evidence what you find to be a reasonable measure of wages owed.

For Danielle Everett, can we take into
account the hours worked at other clubs
based upon ^{her} former Lawsuits?

If she talked about those hours on the
stand, can we take that into account?

We would like to see a transcript of
her entire testimony.

Members of the Jury:

You have asked why you need to provide additional information on the verdict form for the amount of an award after a certain date. Your verdict is the number on the first line. There are aspects of the case, however, that the court must decide after the jury returns its verdict that depend on calculation of the amount of the award that was included in the first number that was for work after those dates.

As to Danielle Everett, you may consider the entirety of the testimony that you heard. There is no transcript and you must rely on your collective recollection of the evidence.
